

**Are you . . .**  
**a lover of Jesus and people?**  
**a leader of leaders?**  
**a lifelong learner?**

***If so, we have an opportunity for you  
to help transform our community.***

Covenant Christian Community Church in Penetanguishene, ON is looking for someone with these attributes to join us as our Next Generations Ministry Director. Covenant Church was founded in 1980 and has a long history of children, youth, and family ministry. Affiliated with the Be In Christ Church of Canada (beinchrist.ca), our diverse and growing congregation has reaffirmed our commitment to next generations and are looking for the right person to lead us in this initiative.

Penetang is a bilingual town of 9,000 people on the south-easterly tip of Georgian Bay. Almost 2150 of those residents (24%) are under the age of 25. More than 900 elementary school children attend schools within a 1 km walk of our Covenant Church building. Although we are a small town, Penetang has six elementary schools and a high school. Additionally, we are minutes away from Midland (16,500 people - with 2 high schools serving the entire area) and the Townships of Tiny (11,500 people) and Tay (10,000). The opportunity here for impact among next generations, their families, and our community is massive!

We are looking for someone who loves Jesus, his church, students, and our community. We are looking for a leader who can help raise up, equip, and empower teams of people to serve next generations in our community . . . and continue to support them as they move away for further education or employment. We are looking for a learner who is not satisfied with what has been done in the past, but will creatively listen, discern, and dream about what must be done for the present and future.

If you are a mature, experienced team builder who is excited about the opportunity to be a key catalyst in something that God is doing in our church and in our community, you can explore this opportunity more by watching the video below and reading the full role description attached.
